BACHELOR'S DEGREE BUSINESS INTELLIGENCE (ITESM)

As a diligent student at ITESM, pursuing a Bachelor's in Business Intelligence, I balance my academic endeavors with a role as an Intern Project Manager. My experience is further enriched by a concentration in Artificial Intelligence, focusing on its business impact. I am dedicated to applying my multifaceted skills to advance a company's goals while maintaining a positive and proactive attitude.

EMPLOYMENT HISTORY

Intern Project Manager, Lumston

Aug 2023 — Present, Guadalajara, Jal. México.

As an Intern Project Manager at Lumston, I have been instrumental in developing and implementing dashboards for various client companies using platforms like Tableau, AWS Quicksight, and Power BI. My role involves not only the visualization of complex data but also extends to creating and managing queries within AWS. This position has allowed me to hone my skills in data analysis and project management, ensuring that client requirements are met efficiently and effectively."

EDUCATION

ITESM, Two time award "Excelencia Tec" winner

Aug 2022 — Jun 2023, Guadalajara

During the February-June 2023 semester, I was honored with an award for achieving the highest GPA in my class, having maintained a perfect average score of 100/100. Additionally, I was recognized for my exceptional performance in the challenge course 'Construcción de Soluciones para el Mercado,' which further underscored my academic excellence and problem-solving capabilities."

ITESM, Cumulative average

Jun 2021 — Present, Guadalajara

96.35/100 accumulated grades up to January 2024. (ITESM School of Business, and Bachelor's degree in Business Intelligence)

ITESM, Academic Talent Scholarship.

Aug 2021 — Present, Zapopan

Academic excellence scholarship at ITESM.

Zapopan

Making of personal portfolio website, made using HTML, CSS and Java Script, as a way to display my skills and work. Link: jpalopeza.com

Financial planning.

Zapopan

During the financial direction class at ITESM, I had the opportunity to work on a project where I analyzed the basic financial statements, including the Income Statement and Balance Sheet, as well as calculated financial ratios and percentages for horizontal and vertical analysis of financial statements using Excel. The project was focused on the company Agribest.

Building solutions for the market.

Zapopan

During the building solutions for the market, my teammates and me, where able to develop a value proposition, marketing plan, and financing plan for a project proposed to Telcel, a Mexican company, which involved the use of cutting-edge tools.

Stock Market dynamics analysis.

Zapopan

I utilized a Vector Autoregressive (VAR) model to analyze and forecast stock market trends of major automotive firms, such as Toyota and Volkswagen. This involved a Granger causality test to uncover significant interrelations between stocks, providing valuable predictive insights.
